

Mid-South Business Objects User Group

September 17, 2014

LifeWay Christian Resources
One LifeWay Plaza, Nashville, TN 37234-0130

When	What	Who
10:30 - 11:00	Welcome & Opening Remarks	<i>All</i>
11:00 - 12:00	SAP Lumira Update and Demonstration SAP has been investing a good deal of money, effort and time since our last review of Lumira. The product is on release 1.18 and the features and fluid behavior of the product is getting much better. This session will help explain use cases for Lumira, licensing and highlight recent changes of the product. A live demonstration will also highlight the interactive features and mobile capabilities of SAP Lumira.	Bob Zenker <i>Decision First</i>
12:00 - 1:00	Lunch & Networking	<i>All</i>
1:00 - 1:30	Bring your Problems, Challenges, & Ideas Q & A forum that provides opportunities to share problems and discuss challenges with the entire group. You may also submit items that you would like to see SAP Business Objects address.	<i>All</i>
1:30 - 2:30	Business Objects and Hadoop Have you wondered about using Hadoop in a Business Objects environment? Well in this presentation you will learn about Hadoop and how you can use it with Business Objects. You will also learn about the Hive and its use with WebIntelligence reports, Universes, and Dashboards. Lastly you will learn about the JDBC connection needed to connect to Hadoop/the Hive.	David Kurkowski <i>HealthTrust/ HCA</i>
2:30 - 2:45	Parting Announcements	<i>All</i>
